

Christian Life Center Members:

It is imperative during these times that we have accurate contact information recorded in our Church Management System. To do so we are asking that each member complete a 'Self-Audit'. This self-audit will allow you to update your essential information. This evening our church Core Leadership Team will send you a direct email invitation (if we have a working email on file for you). Please follow the prompts to obtain credentials and take some time to review/update your information.

Please check the Audit 2020 and place 'Completed by Member' in the Audit Status area. This helps the team to verify you have updated your information. These steps will help to ensure we can communicate to our Church Family effectively.
